PROFESSIONAL SUMMARY

Passionate and resourceful Front-End Developer with hands-on experience building responsive, accessible websites using HTML and CSS. Completed an internship delivering production-ready interfaces on tight deadlines. Skilled in translating UI designs into clean, functional code. Comfortable working in collaborative environments and quick to adopt new tools and technologies.

EXPERIENCE

Web Developer Intern

May 2024 - Jun 2024

CoderProfession, Tirunelveli

- Developed and deployed static websites based on real-world client-style requirements using HTML and CSS.
- Delivered 3 complete front-end projects within deadlines
- Transformed UI designs into clean, structured code with attention to layout, responsiveness, and cross-browser compatibility.

SKILL SUMMARY

- Technical Skills:** HTML, CSS, JavaScript (Basics), Python (Basics)
- Tools & Platforms:** Visual Studio Code, GitHub, Chrome DevTools
- AI Tools:** ChatGPT, Copilot (Prompt-driven code generation & debugging)
- Soft Skills** Communication, Teamwork, Adaptability, Active Listening, Problem Solving

PROJECTS

1. Finance Company Landing Page | [Live Demo](#)

Designed and developed a professional website layout for a fictional finance firm using HTML and CSS. Focused on responsive design and clean UI for service presentation.

2. E-Commerce Web Page UI | [Live Demo](#)

Built the front-end layout for a mock e-commerce store. Structured sections for product display, banners, and navigation using semantic HTML and styled with CSS Flexbox.

3. YouTube Home Page Clone | [Live Demo](#)

Recreated YouTube's homepage UI using HTML and CSS to practice complex layout design. Achieved 100% visual accuracy on desktop and 90%+ responsiveness across screen sizes

4. Supermarket Management Website (Full Stack)

Developed a complete supermarket website within 7 days, handling front-end, back-end, and database integration using AI-assisted tools. Customized and debugged AI-generated code.

Stack included HTML, CSS, JavaScript, PHP and MySQL. Focused on clean UI, real-time data flow, and deployment-ready output.

CERTIFICATIONS

- Canva** - Simplilearn
- Chat GPT** - GUVI Geek Networks, IITM Research Park
- Javascript** - GUVI Geek Networks, IITM Research Park (In Progress)
- Introduction to Web Development with HTML, CSS, JavaScript** - IBM (In Progress)

EDUCATION

Bachelor of Science in Computer Science

Jun 2022-May 2025

St. Xavier's College(Autonomous), Palayamkottai.

CGPA: 7.12

ACHIEVEMENTS

- Built and deployed 3 websites in 30 days as part of internship project cycle.
- Improved website responsiveness score to 95+ using Chrome DevTools optimization.
